

## **Charles 13 August PRT**

### **Agenda**

Planning  
Behaviour

### **Planning**

Planning to share Reading, Maths ,Languages , Topic Weekly  
Learning Intentions needed for each area.

Charles to share next Friday. Hoani to email copies of his planning.

### **Areas to work on:**

Maths Groups need to be established with a workable system

ANP Model: game /maintenance/ teacher

Reading Groups: Groups set up .Regular guided reading needed.

Charles has established two maths groups and reading groups.Focus has been on  
Number knowledge /problem solving and comprehension.

Next step is for Charles to ensure his Reading programme/Maths programme continue  
to meet the needs of his children.

### **Behavior Ideas**

Great gains has been made in establishing relationships with children. Discussed the  
need to set clear boundaries.

If children are not settled before 9, 11 and 1:30 request them to line up outside.

Ensure kids behaving correctly are constantly rewarded.95% vs 5% example  
discussed. Need to focus on the positive and ensuring you have that 95% balance.

Set Reward system: Brainstorm with class what makes a good reward.

Brainstorm good behaviour and display.

Brainstorm consequences.

Class treaty redo: Have them sign.

This has been done and constant revisiting is now needed .Describing /explaining  
values just as honesty, responsibility is also required. Words vs actions.

Any behaviour problems move to room 10.Suggested 3 strike system.

Give time limits for kids to complete task. Set task that must be completed before  
play and lunch.

Those who don't complete miss out on reward time (Friday) or make up in their time.  
Clear expectations needed.

Separate problem kids. This has been done and group points are being operated.

Meet with parents.

**Meeting time next Wednesday 3:15.**
